PROFESSIONAL SUMMARY

AI/ML Engineer with hands-on experience in designing scalable RAG-based chatbots, multi-agent conversational systems, and backend automation using LangChain, LangGraph, Rasa, FastAPI, and Django. Proficient in Cloud Infrastructure (AWS), Vector Databases (Pinecone, Qdrant, FAISS), and modern Deep Learning frameworks like PyTorch and TensorFlow. Seeking roles to build innovative AI products that integrate advanced reasoning with real-world applications.

TECHNICAL SKILLS

Languages & Databases: Python (Expert), SQL (Expert), PostgreSQL (Expert), Vector DBs (Pinecone, Qdrant, FAISS, ChromaDB), JavaScript (Intermediate)

AI/ML & NLP: Machine Learning (Expert), Deep Learning (Advanced), RAG (Expert), Conversational AI (Expert), Agentic AI (Advanced), LLM Fine-Tuning (PEFT, LoRA, QLoRA), Transformers, PyTorch, TensorFlow, Prompt Engineering, LLMs (OpenAI, Gemini, Llama, Mistral), Ollama

Frameworks & Cloud: AWS (Cloud), LangChain (Expert), LangGraph, Rasa (Expert), FastAPI (Expert), Django (Expert), Docker (Expert), Redis, Celery, HuggingFace

APIs & Integrations: OpenAI (Expert), Vapi (Advanced), Gupshup (Advanced), Twilio (Advanced), ElevenLabs (Intermediate)

WORK EXPERIENCE

AI/ML Developer

Sep 2025 - Present

Plutos.One

- Built a production-grade Conversational AI Platform integrating LangChain, LangGraph, and Rasa for agentic workflow automation, handling 10K+ daily queries with 95% uptime.
- Developed RAG-based retrieval systems using Vector Databases (FAISS/ChromaDB) for context-aware responses, improving query resolution accuracy by 25%.
- Integrated FastAPI and Django REST Framework with asynchronous orchestration using Celery and Redis, reducing processing time by 35%.
- Deployed containerized services with Docker on AWS, enhancing scalability and streamlining CI/CD pipelines for 50% faster deployments.

Software Developer Intern

Jan 2024 - July 2024

DigiMonk Technologies (AI Sales Agent)

- Developed an AI-driven Sales Dialer Agent integrating Vapi.ai and Twilio APIs for automated calling and lead engagement, boosting lead conversion rates by 25%.

- Built REST APIs for managing call logs, transcripts, and analytics, reducing manual workflows by 40% and enabling real-time dashboards for sales teams.

PROJECTS

AI-Powered Customer Support Chatbot (RAG-based)

Tech: FAISS, Gemini LLM, Python, LangChain

- Designed and deployed an enterprise-grade RAG-based chatbot using FAISS and Gemini LLM for accurate, context-aware responses, supporting 1K+ daily interactions.
- Built a document ingestion pipeline supporting PDFs, CSVs, and text files with adaptive top-k retrieval and hybrid search.
- Improved latency by 30% and response accuracy by 20% via retrieval optimization, reranking, and caching strategies.
- Developed modular REST APIs for seamless CRM integration, including webhook endpoints for real-time updates.

WhatsApp Visa Chatbot

Tech: Rasa, Django, Redis, Celery, Gupshup API, Docker, PostgreSQL

- Built a real-time Visa Assistance Chatbot using Rasa for conversational AI and Django REST Framework for backend management, handling multilingual queries.
- Integrated Gupshup API for WhatsApp message automation and utilized Redis and Celery for asynchronous task handling, improving system responsiveness for 5K+ sessions.
- Deployed with Docker and Kubernetes basics, successfully tested for 5K+ concurrent users under load.

Sentiment Analysis for Movie Reviews

Tech: PyTorch, Transformers, BERT, LoRA, MLflow, Streamlit

- Fine-tuned BERT using LoRA (PyTorch/Transformers) on IMDb dataset to classify sentiment polarity, achieving 92% F1-score on test set.
- Reduced model parameters by 70% while maintaining 90% accuracy and achieving 40% faster inference.
- Built automated evaluation scripts with MLflow to monitor F1-score, precision, and recall across epochs, integrated with Streamlit dashboard.

EDUCATION

B.Tech – Information Technology **ITM University, Gwalior**

CGPA: 8.0 | Relevant Coursework: Artificial Intelligence, Data Structures & Algorithms, Database Systems

CERTIFICATIONS

- Full Stack Data Science – Naresh IT, Hyderabad (Faculty: Mr. Omkar Nallagoni, 2025)
- Cambridge Business English Certificate, 2024
